A smart interface
that turns shopping
into an interactive
and modern experience

Distinctive product attributes

Interactive shopping

- Intuitive and engaging user experience thanks to the 7" Full HD touch-screen, to check promotions, personalized images and videos directly on the home page. Key board version is also available.
- With a "browse by category" feature, product selection is simple and guided, with instant access to nutritional information and multiple shopping carts.

Accessories available

- Thanks to the accessories such as integrated lift system or automatic opening of the compartment, the delivery product is easy and safe.
- Transparent visioshops allow from 8 to 10 selections per tray, increasing capacity. The internal layout is flexible and modular, without need of tools. increasing capacity. The internal layout is flexible and modular, without need of tools.

Gusto wide values

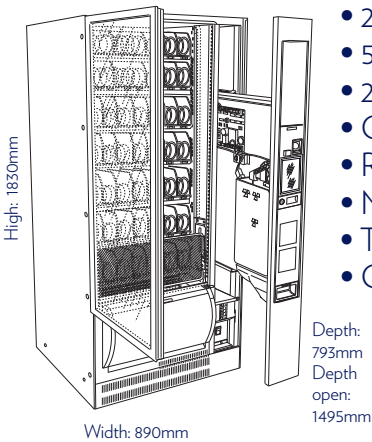

Sustainability excellence

- Class D energy label (according to IEC EN) achieved through excellent thermal insulation and use of high-efficiency R290 natural gas.
- Designed also with bio-circular plastics parts, up to 60% recyclable components and 100% recyclable packaging easy to be disposed. .

Full solution with guaranteed performances

- High-performance cooling unit ensuring the best quality under demanding environmental conditions as 35°C / 65% of humidity.
- Banked with a Necta Barista coffee machine allows a complete experience with the full digital services proposition (two-way telemetry services such as TeleVend and AmiClo).
